

GAURAV SONI

+91-9460047987 | gauravsoni2430@gmail.com | github.com/gauravs2430 | linkedin.com/in/gaurav-soni

Full-stack developer (3rd-year CS, IIIT Vadodara) with hands-on experience building and deploying MERN and PostgreSQL applications. Skilled in REST API design, JWT authentication, AI integrations, and cloud deployment (Vercel, Render). Looking for a full-stack or MERN stack internship to build scalable, production-grade products.

EDUCATION

Indian Institute of Information Technology, Vadodara
B.Tech in Computer Science and Engineering / CPI: 6.8 / 10

June 2023 – Present

EXPERIENCE

SYNTECXHUB

Frontend Web Development Intern — Remote

April 2026 – May 2026

- Developed and integrated **4+ React functional components** (hooks-based), resolving reported UI bugs and shipping all assigned features on schedule under senior developer review.
- Wired **3+ REST API endpoints** into UI components via Axios with structured error handling; used Postman to validate request/response contracts and catch 5+ edge-case failures before QA.

PROJECTS

TruthMentor AI – Brutally Honest Career Intelligence Platform

React 19, Node.js, PostgreSQL, Supabase, GPT-4o-mini, Tailwind CSS / [GitHub](#)

2026

- Built a **3-stage AI pipeline** — prompt engineering → GPT-4o-mini inference → PostgreSQL persistence — generating structured roadmap data across a **6-table relational schema**.
- Reduced AI inference cost by **~10×** by switching to GPT-4o-mini with JSON schema enforcement, maintaining output quality.
- Implemented **PostgreSQL Row-Level Security** with 12+ policies for multi-tenant data isolation; fixed OAuth session race conditions and added optimistic UI updates.
- Developed persistent roadmap, chat, and progress-tracking modules supporting dynamic milestone completion and long-term conversation history.

ZomoReels – Reel-Based Food Discovery Platform

React 19, Node.js, Express, MongoDB, JWT, Zod, Multer, ImageKit / [Live](#) / [GitHub](#)

2026

- Shipped a **13-endpoint REST API** platform with TikTok-style scroll-snap reel feed, like/save/bookmark — 2 user roles, 4 route modules, 7-layer backend architecture deployed on Vercel + Render.
- Implemented **dual-role JWT auth** with HttpOnly cookies (7-day expiry); middleware differentiates `TokenExpiredError` vs `JsonWebTokenError` — auto-clears stale cookies, returns structured 401s.
- Built **6 Zod schemas** via reusable middleware factory; bcrypt (10 salt rounds); `NODE_ENV`-toggled CORS for local-to-prod switching; try/catch across all 12 controller functions.
- Designed a **3-stage media upload pipeline** — Multer → base64 → ImageKit CDN (UUID filenames); atomic \$inc on `likeCount` across 5 Mongoose collections with `.populate()` bookmark retrieval.

Smart Agriculture Monitoring & Decision Support System

React (Vite), Node.js, Express, MongoDB, Chart.js, Tailwind CSS / [GitHub](#)

2025

- Engineered a **real-time IoT dashboard** with rule-based decision engine analyzing 5 sensor parameters (moisture, pH, NPK, temperature, humidity) to generate recommendations for **12+ crops**.
- Architected 3 MongoDB schemas (`StateProfile`, `CropRule`, `Reading`); built REST APIs powering live **Chart.js** dashboards; led a team of 3 as Project Leader.

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), C, HTML5, CSS3

Frontend: React 19, Tailwind CSS, Vite, Chart.js, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT, bcrypt, Zod, Multer, Axios

Databases: MongoDB (Mongoose), PostgreSQL (Row-Level Security), Supabase

AI & Integrations: OpenAI API (GPT-4o-mini), JSON Schema Enforcement, AI Orchestration Pipelines, Payment Gateway Integration

DevOps & Tools: Git, GitHub, Postman, Vercel, Render, ImageKit, NPM

Familiar With: Next.js, MySQL, TypeScript, Docker

Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems

DSA: 120+ problems across arrays, graphs, DP, and recursion on LeetCode & TakeUForward (Striver's A2Z)

POSITIONS OF RESPONSIBILITY

Lead Guitarist — Encore, The Music Club, IIIT Vadodara

2023 – Present

- Performed at IIT Gandhinagar Battle of Bands; secured **3rd place** in inter-college solo instrumental competition.

Basketball Team Lead — IIIT Vadodara

2023 – 2024

- Represented institute at inter-college tournaments including **Concours** (DAIICT Annual Sports Fest); led team strategy and coordination.

Project Leader — Smart Agriculture Systems, Embedded Systems Project

Jan 2026 – April 2026

- Led a team of 3 to deliver a crop recommendation system end-to-end; designed location- and soil-aware suggestion logic, coordinated hardware-software integration and final delivery.
