EDUCATION

•Indian Institute of Information Technology, Vadodara

B.Tech in Computer Science (3rd Year) | **CPI: 6.8 / 10**

June 2023 – Present

•JEE Mains

97.7 Percentile

2023 – first attempt

EXPERIENCE

•SYNTECXHUB

April 2026 – May 2026

Frontend Web Development Intern

Remote

- Built and integrated **4+ React UI components**, resolving reported frontend bugs and shipping features on schedule under mentor review.
- Connected **3+ REST APIs** to UI components using Axios; validated request/response flows with Postman, catching **5+ edge-case failures** before QA.

PERSONAL PROJECTS

•ZomoReels – Reel-Based Food Discovery Platform

2025

Full-Stack Web App | React 19, Node.js, Express, MongoDB, JWT, Zod, Multer, ImageKit

Live | GitHub

- Shipped a **13-endpoint** REST API food discovery platform across **2 platforms** (Vercel + Render); TikTok-style scroll-snap feed with like, save & bookmark — **2 user roles, 4 route modules, 7-layer** backend architecture.
- **Dual-role JWT auth** (HttpOnly cookies, 7-day expiry); middleware differentiates `TokenExpiredError` vs `JsonWebTokenError` — auto-clears stale cookie, returns structured 401.
- **6 Zod schemas** via reusable middleware factory; bcrypt (10 salt rounds); **try/catch** across **12 controller functions**; `NODE_ENV`-toggled CORS for local-to-prod switching.
- **3-stage media pipeline** — Multipart → base64 → ImageKit CDN (UUID filenames); atomic `$inc` on `likeCount` across **5 Mongoose collections** with `.populate()` bookmark retrieval.

•Smart Agriculture Monitoring & Decision Support System

2024 – Present

Full-Stack IoT Platform | React (Vite), Node.js, Express, MongoDB, Chart.js, Tailwind CSS

GitHub

- Engineered a real-time soil monitoring dashboard with IoT simulation; rule-based decision engine analyzes **5 parameters** (moisture, pH, NPK, temperature, humidity) to generate crop and fertilizer recommendations for **12+ crops**.
- Architected **3 MongoDB schemas** (StateProfile, CropRule, Reading); built REST APIs powering **Chart.js** dashboards with live sensor data visualizations; led a team of 3 as Project Leader.

TECHNICAL SKILLS

Proficient: C++, JavaScript, React 19, Node.js, Express.js, MongoDB (Mongoose), REST APIs, JWT, Tailwind CSS, Git, GitHub

Familiar: C, HTML5, CSS3, Zod, Multipart, Axios, Postman, NPM, Vercel, Render, Vite, ImageKit

Exposure: Next.js, MySQL, WordPress, WooCommerce, Basic SEO, Payment Gateway Integration

Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Areas of Interest: Backend Engineering, Full-Stack Applications, Secure Authentication

DSA Practice: TakeUForward (TUF) – 120+ problems solved on Striver's A2Z DSA Sheet

POSITIONS OF RESPONSIBILITY

•Lead Guitarist, Encore – The Music Club, IIIT Vadodara

2023 – Present

- Performed at multiple inter-college cultural fests including **IIT Gandhinagar Battle of Bands**; secured **3rd place** in an inter-college solo instrumental competition.

•Basketball Team Lead, IIIT Vadodara

2023 – 2024

- Represented the institute in inter-college tournaments including **Concours** (DAIICT Annual Sports Fest); led team strategy and coordination across competitive fixtures.

•Project Leader – Smart Agriculture Systems, Embedded Systems Project

Jan 2026 – April 2026

- Led a team to design a crop recommendation system; architected location- and soil-aware suggestion logic, coordinated hardware-software integration and project delivery.
